

2020 Bright Formulary

(List of Covered Drugs)

Bright Health Individual and Family Plans

Colorado

PLEASE READ: This document contains information about the drugs Bright Health covers in their Individual and Family plans.

This formulary was updated on 11/23/2020. For more recent information or other questions, please contact us at 833-661-1988 or visit www.brighthealthplan.com.

Welcome to Bright

Enclosed you will find a list of the drugs included in our Bright Health Individual and Family plans from January 1, 2020 - December 31, 2020. As you review, be sure to have your medications on hand so you can confirm your prescriptions are covered and compare dosage and pricing of the drugs you take.

Keep in mind, this document includes a *comprehensive* list of drugs (formulary) included in our Individual and Family plans. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

As a Bright Health Member, you must generally use in-network pharmacies to fill your prescriptions. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2021, and from time to time during the 2020 calendar year.

Have a Bright day!

Sincerely,
Your Bright Health Team

Frequently Asked Questions:

What is a Formulary (drug list)?

A formulary is a list of covered drugs selected by Bright Health in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Bright Health will generally cover the drugs listed in our formulary as long as the drug is medically necessary, and the prescription is filled at a Bright Health network pharmacy.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2020 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2020 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. These types of changes may occur without notice to you. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money, or we can ensure your safety.

If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. To get updated information about the drugs covered by Bright Health, please contact us. Our contact information appears on the front and back cover pages.

How do I use the Formulary?

There are two ways to find the drugs you take in the formulary:

1. Medical Condition

The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category "Cardiovascular". If you know what your drug is used for, look for the category name in the list that begins below. Then look under the category name for your drug.

2. Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index at the end of the formulary. The Index provides an alphabetical list of all the drugs included in

this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Bright Health covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Bright Health requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from Bright Health before you fill your prescriptions. If you don't get approval, Bright Health may not cover the drug.
- **Quantity Limits:** For certain drugs, Bright Health limits the amount of the drug that we will cover. For example, Bright Health provides 15 tablets every 25 days per prescription for Zolpidem Tartrate 5mg. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Bright Health requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Bright Health may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Bright Health will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary. You can also get more information about the restrictions applied to specific covered drugs by visiting our Website, www.brighthealthplan.com. We have posted online documents that explain our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Bright Health to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Bright Health's formulary?" for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that Bright Health does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Bright Health. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Bright Health.
- You can ask Bright Health to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Bright Health Formulary?

You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Bright Health limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Bright Health will only approve your request for an exception if the alternative drugs included on the plan's formulary, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, or utilization restriction exception. **When you request a formulary or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take.

For more information

If you have questions about Bright Health please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Our Formulary (drug list)

The formulary below provides coverage information about the drugs covered by our Bright Individual and Family plans. If you have trouble finding your drug in the list, turn to the Index at the end of the formulary.

The first column of the chart lists the drug name. Brand name drugs are capitalized and generic drugs are listed in lower-case italics.

The second column of the chart, Drug Tier, tells you which tier the drug falls under. Drug tiers are how we divide prescription drugs into different levels of cost. How much you will pay will depend on your individual plan, however, here's what the drug tier tells you.

- Tier 1: Preventative drugs with no member cost share under the Affordable Care Act
- Tier 2: Generic Drugs
- Tier 3: Preferred Brand Drugs
- Tier 4: Non-Preferred Brand Drugs
- Tier 5: Specialty Drugs

The information in the Requirements/Limits column tells you if our plans have any special requirements for coverage of your drug.

There. Now that's Brighter.

This formulary was updated on 11/23/2020. For more recent information or other questions, please contact us at 833-661-1988 or visit www.brighthealthplan.com.
