Bright Health with Mercy Health.

We've partnered with Mercy Health Network to provide and coordinate the care you need, when you need it. This directory is a list of all the in-network providers included in Bright Health's Medicare Advantage plans, who have agreed to provide you with healthcare services. You can find a list of in-network dental, vision and hearing providers online at BrightHealthPlan.com/Medicare.

As a Bright Health Medicare Advantage plan member, you may go to any of the network providers listed in this directory.

Our plans revolve around you and the relationship you have with your primary care provider ("PCP"). A PCP is a provider you see for all your basic medical needs, including preventive care. Your PCP will help get you the care you need with specialists, behavioral healthcare providers, hospital services, and more, when necessary. If a prior authorization for a service is needed, your PCP will contact Bright Health before you have the service, to confirm if the service will be covered. That level of care and attention to your healthcare puts you at the center and never in the middle. That's why we request that when you enroll in a Bright Health plan, you choose a(n) Mercy Health Network PCP listed in this directory.

Getting care from an out-of-network provider –

We cover certain health care services that you get from out-of-network providers. For all of our plan types, these include care for a medical emergency, urgently needed care, out-of-area renal dialysis (kidney), care that has been approved in advance by the plan, and any services which were covered through an appeals process. Coverage is only available for emergency and urgent care services that are performed within the U.S. and its territories.

HMO Plans: In most cases, if you choose to get care outside of the plan's network, you will pay the full cost of the service. The exceptions to this rule are listed above.

HMO-POS Plans: These plans are similar to an HMO plan, but you can see providers for certain services outside the plan's network, in addition to the out-of-network exceptions listed above. It may cost you more to get the services out-of-network. Please refer to your Evidence of Coverage (EOC) for details.

PPO Plans: You can see providers for all covered services outside the plan's network, but it will generally cost more to do so.

Billing: If you do receive a bill for **covered services** from an out-of-network provider, contact Bright Health at the number on the front and back of this directory to confirm your cost-sharing responsibility. You should never pay any out-of-network provider more than what the provider is allowed by Medicare. Ask the out-of-network provider to bill us first. If you have already paid for the covered services, we will reimburse you for our share of the cost. If you get a bill for the services, you can send the bill to us for payment. We will pay your out-of-network provider for our share of the bill and will let you know the amount, if any, you must pay.

Urgent Care: If you need urgent care, you may reduce your cost if you seek care from your doctor's office.

Emergency Care

If you have a medical emergency, get help as quickly as possible. Call **911** for help or go to the nearest emergency room or hospital.

If you have an emergency, we will talk with the providers who are giving you emergency care to help manage and follow up on your care. The providers who are giving you emergency care will decide when your condition is stable, and the medical emergency is over. After the emergency is over you are entitled to follow-up care to be sure your condition continues to be stable.

Your follow-up care will be covered by our plan. If your emergency care is provided by out-of-network providers, we can help arrange for network providers to take over your care as soon as your medical condition and the circumstances allow.

If you receive emergency care at an out-of-network hospital and need inpatient care after your emergency condition is stabilized, you must return to a network hospital in order for your care to continue to be covered. Or, you must have your inpatient care at the out-of-network hospital authorized by the plan. If you continue to get routine care from an out-of-network provider after the emergency is over without the plan's authorization, neither Medicare nor Bright Health will be responsible for the costs.

For more detailed information about your healthcare coverage, please see your Evidence of Coverage.
