## Welcome to Bright Health

In collaboration with our care partners, we are committed to providing access to the care you need so you can focus on living your healthiest life. This directory lists the in-network providers included in Bright Health's Individual and Family plans, who have agreed to provide you with healthcare, subject to the terms and conditions of your policy. As a Bright Health member, you may go to any of the network providers listed in this directory.

Our plans revolve around you and the relationship you have with your Primary Care Provider (PCP). A PCP is a provider you see for all your basic medical needs, including preventive care. Your PCP will help get you the care you need with specialists, behavioral healthcare providers, hospital services, and more, when necessary. When your health plan and your healthcare providers are working together, you're always at the center – but never caught in the middle. That's why we request that when you enroll in a Bright Health plan, you choose a primary care provider listed in this directory.

Services performed by an out-of-network provider are generally not covered and will likely cost you more. For more detailed information about your healthcare coverage, please see your Certificate of Coverage.
